Q5

(04)

One “Sale now” ad for six weeks is the #1 BFCM mistake we see.

SHOW THE OFFER.

Most people never read the caption.

OFFER ON THE VISUAL

MIX THE OFFER.

The same % off for six weeks gets tuned out. Change the mechanic, not just the number.

GWP

Gift with purchase. A free extra over a spend threshold. Lifts order value without cutting price.

BEST FOR · EARLY ACCESS · Q5

BOGO

Buy one, get one free or half price. Moves volume and doubles units per order.

BEST FOR · PEAK

BUNDLES

Products sold together at one set price. Easy gifting and a clear saving.

BEST FOR · PEAK · Q5

TAKE A FURTHER

An extra % off what's already on sale. A reason to come back mid-sale.

BEST FOR · CYBER MONDAY

NEW TO SALE

Fresh styles dropped into the sale. Something new for people who've already looked.

BEST FOR · MID-SALE REFRESH

SALE EXTENDED

Extra days after the sale was due to end. Works once, so save it.

BEST FOR · AFTER CYBER MONDAY

MAKE IT FELT.

People forget what an ad said. They remember how it made them feel.

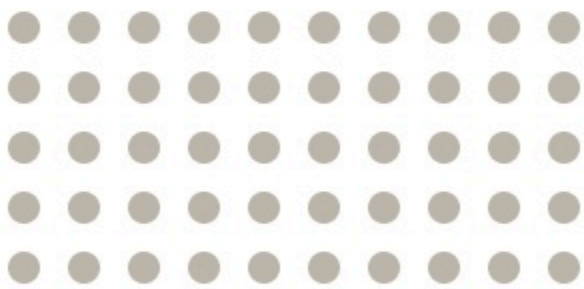

Every ad should move people from one feeling to another. We pick the shift before we brief the creative.

IDEAS, NOT VERSIONS.

Meta’s latest Andromeda update scores every ad, and reads what each person has already seen.

1B+ ads scored every second.

50 versions = 1 shot

SAME IDEA, SAME ANSWER

5 ideas = 5 shots

NEW ANGLE, NEW REASON TO STOP

Test variations to find the message.
Scale different ideas to reach more people.
